

NOT FOR THE STARS
(F. Catley / ChrisAubois)

When I think of love I think of you
I think of all the things we do
Our seaside walks along the beach
Your hand to hold
Now out of reach

Our hopes and dreams
Where did they go
Time's a thief, not much to show
Our weekend trips and now three kids
Time flies on by
You blink an eye

So what shall we do
Which path shall we take
It's not for the stars to hold our destiny
It must be ourselves
To find new life

-----CHORUS-----

Walking by the trees
To lose my mind
And find my soul
Being here is where
I feel alive

When I reach its end
I turn around
To Nature's friend
As every path I'd chosen
Was for you

Our journey complete?
Is it the end of the road?
For us

A pirate ship across the aisle
Opens fire with her smile
In waters deep
No flag on show
The skull and crossbones
Far below

If Stupid's dart had missed its heart
We could've avoided all this part
Three legs of fate
Man's risk to take

Longtail stories contemplate
So what should we do
Which path should we take
It's not for the stars to hold our destiny
It must be ourselves
To find new life

-----CHORUS-----

Walking by the trees
To lose my mind
And find my soul
Being here is where
I feel alive

When I reach its end
I turn around
To Nature's friend
As every path I'd chosen
Was for you

Our journey complete?
Is it the end of the road?
For us

When everything is said and done
We'd have to say
We had some fun
We took some risks
Hand luggaged discs
Our gerbils land
On the Isle of Man

A polygon for a teddy bear
Your flashy leggings, my long hair
A lot of Oscar's Luna love
We stayed together
Through push and shove

So how will it end
And what have we learned
It's not for the stars to hold our destiny
It must be ourselves

So how will it end
And what have we learned
It's not for the stars to hold our destiny
It must be ourselves
To find new life
